Applicants' Amendment filed March 12, 2004 is acknowledged. Claims 1-25 are pending.

The rejection of record in the last Office Action under 35 U.S.C. 112, second paragraph, directed to the inclusion of parenthetical subject matter in claims 1, 5, 11, 20 and 23 is withdrawn following their deletion in the claims.

Claims 1-25 were rejected in the last Office Action under 35 U.S.C. 112, first paragraph, as containing subject matter that was not described in the specification in such a way as to enable one skilled in the art to practice the invention. The specification provides no support for preventing or treating anxiety disorders.

Applicants argue the specification teaches how to make and use the claimed invention on pages 16-18, and no persuasive reasons or evidence are given to support an assertion of lack of enablement.

Applicants' arguments have been given careful consideration but are not found persuasive. The rejection is repeated for the reasons of record.

A review of pages 16-18 of the specification discloses discussions of modes of administration, optimal dosage ranges and dosing regimens. There is no discussion directed to preventing or treating a subject having an anxiety disorder comprising administering a compound of instant formulas I or II. Further, Applicants have failed to provide guidance as to which particular compound would be preferred for preventing or treating the various anxiety disorders encompassed in the claim language.

No claim is allowed.

Art Unit: 1614
